PROJECT SUMMARY

Underlabs Inc. developed a real estate website for a real estate company. They built the front-and backend, created an admin panel for user management, and implemented features for property listing searches.

PROJECT FEEDBACK

Underlabs Inc. deployed a functional website that successfully met the satisfaction of the client's internal staff. Underlabs Inc. ensured stellar project management and continually updated the client on the project's progress. Their development capabilities and quality work were satisfactory.

The Client

Please describe your company and position.

I am the Executive Assistant of Carve Real Estate

Describe what your company does in a single sentence.

Carve Real Estate is devoted to selling small businesses, restaurants, franchises, bars, cafes, breweries, and more. Business brokers with years of experience, we feature more than 100+ businesses for sale.

The Challenge

What specific goals or objectives did you hire Underlabs Inc. to accomplish?

- The project's objective was to create a real estate website that went above and beyond standard listings, enabling agencies and developers to provide their clients with specialized, state-of-the-art services. Our goal was to create a platform that buyers, developers, brokers, and property owners could use as a one-stop shop. The platform would be simple to use, allowing users to maximize their visibility at the lowest possible cost.

The Approach

How did you find Underlabs Inc.?

- Online Search
- Clutch Site

Why did you select Underlabs Inc. over others?

- Close to my geographic location
- Pricing fit our budget
- Referred to me

How many teammates from Underlabs Inc. were assigned to this project?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

To list and market solutions for real estate professionals and users, we required a real estate website. Users can use the features and functionality of the website to search for property listings and get in touch with the builder or agents. However, property listings can be effectively managed by developers, owners, individual brokers, or brokerage firms. Additionally, we may use the administrator panel to manage every specified user and attribute.

The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

While it is only a few months into deployment, most of our agents who are using the portal are happy with it.

Describe their project management. Did they deliver items on time? How did they respond to your needs?

Project management was pleasant. The project manager had much responsibility and deadlines were tight. The manager shared a list of milestones with us so we could keep track of their progress and evaluate each new release.

What was your primary form of communication with Underlabs Inc.?

- Virtual Meeting
- Email or Messaging App

What did you find most impressive or unique about this company?

The team's most impressive aspect was their ability to develop any request that we had. They delivered on the functionality of both the front-and backend, flawlessly.

Are there any areas for improvement or something Underlabs Inc. could have done differently?

No. We're very satisfied with their work.
